## Hotels introduce A.I Devices

Smart devices are becoming more and more prevalent in daily life, from televisions to thermostats to toasters. Devices with digital assistants, like Amazon's Alexa or iOS's Siri, are also expanding at a rapid pace. It makes sense that the hotel industry, with their focus on hospitality, would take advantage of this new technology to make their guests' stays more comfortable.

# APP & GADGET OF THE MONTH

## OPENTABLE APP

A hotel concierge is your go-to person when you need dinner reservations, but what happens when you're staying in a limited-service hotel? If you have the Open Table app on your phone you can make your own reservation in a matter of minutes.

Enter your location, add a date, time and number in your party and it immediately shows you which restaurants match your requirements and have available tables.

The app is free to download on both the [App Store](#) and [Google Play](#). To learn more about the featured areas and current restaurants for each make sure to check out [www.opentable.com](http://www.opentable.com).
